

Mint.com Users

Mint.com services may be interrupted for up to 5 business days. Mint.com data is stored on Intuit cloud servers and data is updated with every change and cannot restore data to a previous point in time.

For a successful account update, do not log into your Mint.com account until Monday, September 27, 2021.

During this time, the Mint.com server will automatically make the system conversion for your activated accounts. If you log in during this time, you may see duplicate accounts or an error message displayed. Please do not attempt to change the status or make any changes in Mint.com. On Monday, September 27, 2021 the accounts should reconcile, showing your transaction history available.

In the event that your accounts do not display current transactions after 5 business days, you may log back into Mint.com and click refresh to update the accounts. After the download completes, click the transactions tab to view up to 90 days of transaction history.
