TIPS FOR USING MOBILE DEPOSIT

Endorse the back of your check with “For mobile deposit to Byron Bank” followed by your signature.

Carefully enter the amount of your check and ensure it matches the amount written on the check.

Capture the whole check in each picture. You'll be prompted to capture both the front and back of your check.

Before submitting your check, ensure all four corners are visible, the image isn't blurry, and there are no shadows on your check.

Check the Byron Bank Mobile App the next day to verify the status of your transaction.

Keep your check until funds are posted to your account and then destroy the check.
